(May 11, 2010 Phoenix, AZ) After 25 years of incredible dedication to the Child Crisis Center's mission, the FIT tournament has enabled thousands of children to experience the love and care needed to gain a fresh start. Many of the first children helped by the generous Fiesta Invitational Committee members and tournament participants are now happy, earnest young adults experiencing life through thankful eyes. Those that are still healing know the warmth of hope and the promise of a safer, brighter future because of the tournament's generosity.

"The time and effort that is required to create and operate a golf tournament, one that is successful year after year, and the additional events and programs to support it is extraordinary, as are those individuals that make this commitment to the Child Crisis Center's children," says Chris Scarpati, the Center's Chief Executive Officer.

On the 25th anniversary year of the Fiesta Invitational Tournament, The Child Crisis Center would like to say congratulations and share with you our gratitude for your ongoing commitment to the most vulnerable citizens in our community. The tournament committee's quarter of a century-long dedication to the Child Crisis Center has raised over \$1,161,638, for our emergency shelter and the crucial services it provides the kids that find themselves in need of a safe place to call home. Thousands of children have benefitted and luckily will continue to benefit, from their philanthropy on and off the golf course.

We cherish our relationship with the Fiesta Invitational Tournament Committee and its participants and are looking forward to another wonderful tournament in 2011.
